Star Academy Trust: Directors and individual school's Local Advisory Board Delegation Planner

The Directors of Star Academy Trust are accountable in law for all decisions about the school and its future. They can determine the extent of any delegated powers to nominated individual/committees and local advisory boards. From time to time the Directors may delegate a task/responsibility to an individual/committee is important that such a record of delegation is maintained since without this the individual/committee has no power to act.

This document sets out the areas of responsibility for Members, Directors, the Local Advisory Board (LAB) and the Principal. It also highlights which areas require consultation before being decided. Where consultation is not required it is essential that other parties are informed of all decisions. When the document states that the LAB must be consulted, this includes the Principal as a member of the LAB

This document applies to all organisations that are part of Star Academy Trust, including organisations that are part of subsidiary companies.
